

Company Profile & Catalogue

Introduction :

Founded in 2014 and based in South Africa, **GLOBAL OHL & COMMODITY SOLUTIONS** was established in response to the growing needs of the African continent.

Our journey began by offering essential electrification solutions and has since expanded its reach globally. Over the years, we have diversified into the global distribution of life-sustaining commodities, such as food—grains, pulses, rice—and essential minerals.

Our services now extend to the global supply of essential food commodities such as grains, pulses, rice, and minerals, contributing to the well-being of communities worldwide.

Through a structured and diligent approach, we have carefully selected our suppliers to ensure the highest quality products and services, working alongside partners who share our values and vision.

We take great pride in our dedicated team and our robust, vetted network of suppliers. This enables us to consistently deliver exceptional service to our clients, supported by our strong global supply chain and manufacturing partners.

Our Structure:

The company operates through two key divisions:

- OHL Electrification**
- Commodities**

Each division is staffed by a team of professionals committed to understanding and addressing your unique needs.

Whether it is providing reliable electrification solutions or sourcing high-quality commodities, we are here to ensure your requirements are met with the highest standards of service and care.

COMPANY COMMITMENT

Company commitment :

At GLOBAL OHL & COMMODITY SOLUTIONS, we are unwavering in our dedication to delivering excellence. We strive to achieve:

- 110% Customer Satisfaction:** Our goal is not just to meet, but to exceed our clients' expectations, ensuring every interaction and service is exceptional.
- Quality-Approved Products:** We supply only the highest quality products, ensuring they are thoroughly vetted and approved to meet rigorous standards.
- Adherence to Specifications and Standards:** We pride ourselves on consistently conforming to all relevant specifications and industry standards, ensuring reliability and compliance in every aspect of our work.
- On-Time Delivery:** We understand the importance of deadlines and are committed to meeting agreed-upon delivery schedules without compromise.
- Expert Consulting Services:** Our team provides professional and expert consulting, offering valuable insights and solutions tailored to your unique requirements.
- Partnership with Approved Suppliers:** We collaborate with a select network of suppliers who share our commitment to excellence, ensuring that the products and services we provide are aligned with the needs and expectations of our clients.
- Flexibility and Adaptability:** We recognize that each client has unique needs. Our ability to adapt and offer customized solutions is at the core of our service model.

OHL & Accessories

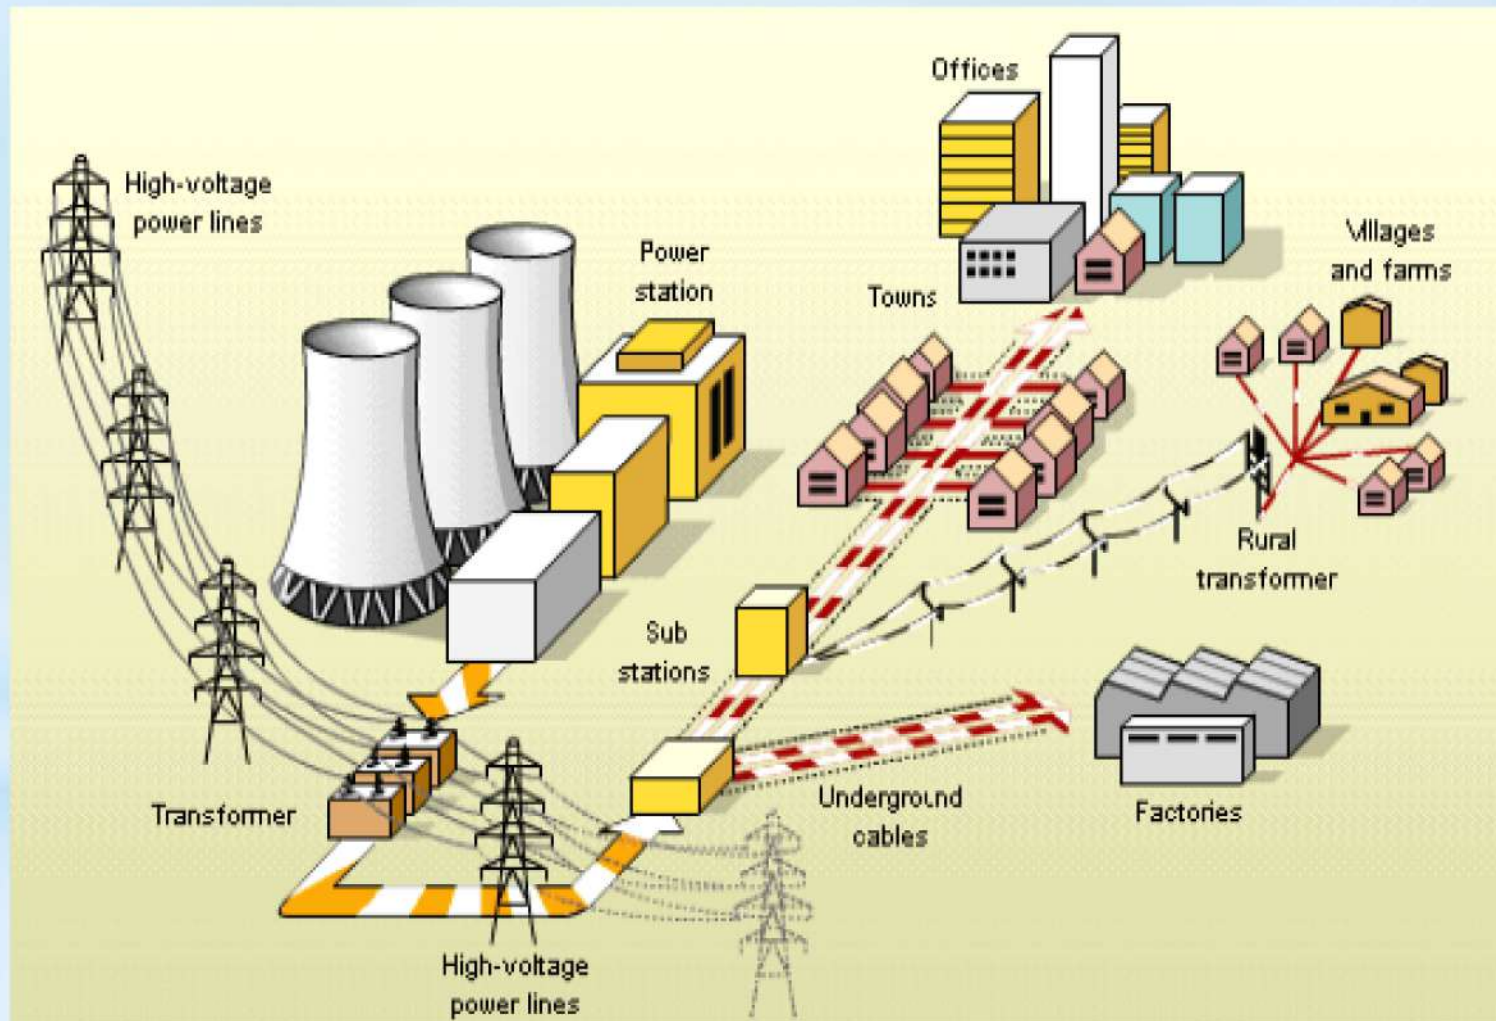

Distribution & Transmission Line Hardware Fittings

We are a trusted and experienced supplier of hardware fittings and accessories for **Distribution & Transmission Overhead Line Network** applications.

Our products supplied are rigorously type-tested in compliance with international standards, including **IEC, ASTM, BS, DIN, ISO**, and more.

We are committed to providing high-quality, reliable solutions that meet the specific needs of your projects. Whether you require individual fittings or complete system solutions, we offer competitive quotes and tailored services to address your requirements.

Contact us today for a customized quote and effective solutions for your needs.

Pre-Shipment Inspection Services

We arrange approved Inspection Authority and welcome you as the client to pre-inspect the cargo prior shipment.

The goods, invoices and other documentation to enable proper identification prior to shipment with regard to:

- ✓ Quality
- ✓ Quantity
- ✓ Tariff classification
- ✓ Import requirements
- ✓ Export market price and/or valuation for customs purposes
- ✓ This identification allows for the correct assessment of customs duties and taxes or the shipment value for foreign exchange control. A successful Pre-shipment inspection is also key to helping governments maintain compliance with the WTO Agreement on Customs Valuation
